

# K–5 Synchronous Virtual Teacher Services

## Accommodate a variety of learning needs while providing a personalized learning experience

Give K–5 students access to virtual instruction that blends the best of synchronous instruction with a highly qualified, certified Virtual Teacher of Record and best-in-class, award-winning asynchronous curriculum. Students will work on asynchronous learning activities online including instruction, learning modules, quizzes, and tests they can take at their own pace.

Students will meet for whole group instruction for forty-five minutes a day, five days a week with their Virtual Teacher of Record to receive direct instruction in a specific core subject area. Their virtual teacher will also be available to provide 1:1 office hours throughout the week as requested by the student. Students that are below 50% overall grade in ELA & Math will meet 1–2x per week with the Virtual Teacher of Record for remediation and enrichment in small group sessions for 30 minutes per week. The Virtual Teacher of Record connects with families and school mentors to update everyone invested in a student's progress and works in tandem with our support team to help ensure student success.

### Whole group instruction schedule with Virtual Teacher of Record\*

<b>Monday</b>	ELA
<b>Tuesday</b>	MATH
<b>Wednesday</b>	SCIE/SS
